**Subject:** RAO Questions

Hi Kristine,

I have a few questions on the RAOs. I spoke with Eva and she said they were Kristine or Elizabeth questions. So here goes:

### RAO 3

1. Does surface water include transition zone water/pore water? **Yes**
2. Where did the list of COCs come from? Are they the result of unacceptable risk from exposure to surface water in the HHRA and surface water column ARAR exceedances? **Refer to Tables 2.2-2 and 2.2-3**

### RAO 4

1. Where did the list of COCs come from? Are they the result of screening upland groundwater plume data or RI TZW data? **Refer to Tables 2.2-2 and 2.2-3**

I have the same questions for RAOs 7 and 8, but I am assuming the answers will be the same as RAOs 3 and 4 except based on the BERA instead of the HHRA.

Thanks for your help clarifying.
